- Postman

LANGUAGES

- English
- Bahasa Indonesia

ABOUT

Software development has never been "just work" for me, it has enabled me to challenge myself continually and progressively - be it learning new technologies or planning that next big project! What started with a simple "Hello World!" turned to be one of my greatest joys that only gets more exciting as years go by.

EXPERIENCE

Code for each available on [portfolio](#) and [github](#).

SAIKO GAMES

A video game information website that displays current releases, most popular, featured, and trending games, and video game information and reviews.

saiko-games.herokuapp.com

MACHIO'S PUB & GYM

A website for "Machio's Pub and Gym", highlighting the pub menu, gym facilities, and more restaurant related details.

machios-pub-and-gym.netlify.app

PROJECC

A real-time text messaging web app inspired by Discord. Log in, start making friends, message directly or make project groups with them and chat in real-time!

projecc-afu.herokuapp.com

DEVIL'S ADVOCATE

An e-commerce website for One Piece's devil fruits. Data scraped from a third-party site, complete with everything an e-commerce site needs.
